PRODUCT

Refined Castor oil (F.S.G./B.S.S)-

Refined castor oil is yellow viscous liquid free from suspended matter and is insoluble in water. The oil obtained from the seeds of this plant is a very useful raw material in many industries like soap, surface coatings, cosmetics, pharmaceuticals, perfumes, greases and lubricants etc. **FIRST SPECIAL GRADE CASTOR OIL** is produced by refining Commercial Grade Castor Oil through bleaching and filtering process. Bleaching is done using Bleaching Earth and Activated Carbon, which helps in reducing coloring pigments or impurities and moisture content.

SPECIFICATION

DESCRIPTION	SPECIFIC RANGE
Refractive Index	1.477 — 1.481
Moisture & Volatile Matter	0.25 Percent Max
Insoluble Impurities	0.02 percent Max
Free Fatty Acid	1 Percent Max
Acid Value	2.00 Max
Iodine Value (By Wiss, gl 2 / 100g)	82 - 90 Percent
Acetyl Value	140 Min
Saponification Value (mgKOH/gm)	177 - 187
Unsaponification Matter	1.00% Max
Hydroxyl Value	160 - 168
Relative Density 15/15.5 DC	0.958 - 0.969
Viscosity Gardner- Holdt	U-V
Color on Lovibond	20 Yellow, 2.0 Red Max
Appearance 25 DC	Clear and free from suspended matter
Odor	Slight, Characteristic
Ricinoleic Acid Content	85 Percent Min

APPLICATIONS

. It is used for various industrial applications and generally in manufacturing of textile chemicals or as wetting agents for inks, coatings and adhesives.

.It is used as an ingredient in pharmaceutical and cosmetic applications

.It is used as lubricant component of coatings for vitamin and mineral Tablets.

.It is used as a dielectric material for electrical condensers

.It is used to manufacture polyurethane casting resins

.It is used in hydraulic fluids for automobiles, trucks and machinery

.It is used as an ingredient for petroleum oil-field de-emulsification

PACKAGING

- 1) Standard Packing
1 Unit 20 FT Container
- 2) Packing - Flexi Bag
22MT per 20FT Full Container Load,
- 3) Packing - ISO Tank
22MT per 20FT ISO Full Container Load,
- 4) Packing - Steel Drum
16MT per 20FT FCL (200Kg Drum),
- 5) Packing - HDPE Drum
16MT per 20FT FCL (200Kg Drum),
- 6) Packing - IBC Tank
1000 Kgs.IBC X 20 = 20MT per 20FT FCL
